You could spend as much to learn a skill as we'll pay you.

You've graduated from high school, and you're looking for a good job. But to get one, you need training that could possibly cost hundreds of dollars in trade or technical schools.

Today's Army offers you this training, and a salary, too. $326.10 a month before deductions, to start. And that's money in the bank when you consider that expenses like food, housing, medical and dental care are all free.

We have over 200 excellent job-training courses. Taught by qualified, professional instructors, with equipment you can't wait to get your hands on.

And you can pick the training you want. In electronics, communications, law enforcement, food service, administration, construction, you name it. If you're qualified, we'll guarantee it, before you enlist.

So if you'd like a headstart on your career, at our expense, see your local Army Representative.

Today's Army wants to join you.

Hey Jim sure glad to have a friend like you! There seems to be no end to your charms (& you can do our routine too), so you just keep hall-i-huping along & you'll do fine. I'll never forget some of the great times we've had in our peachy ginger & (pregnant) English class! HA!

Never change!

Love ya
